NOTABLE TRAITS

- ❖ **Visual Consistency:** Ensure a cohesive and professional visual design across all web components and pages by applying consistent design elements such as color schemes, typography, and spacing.
- ❖ **Interactive Experiences:** Create engaging and user-friendly interactions through animations, transitions, and responsive elements that enhance user satisfaction and retention.
- ❖ **Clean Code:** Write modular, well-documented, and maintainable code that follows industry best practices, facilitating easy updates and collaboration with other developers.
- ❖ **Performance Optimization:** Optimize web performance for fast and efficient loading times by minimizing render-blocking resources, efficiently loading assets, and optimizing script execution.
- ❖ **Accessibility:** Ensure web applications are accessible to all users, including those with disabilities, by incorporating keyboard navigation, screen reader compatibility, and accessible forms following WCAG guidelines.
- ❖ **Problem-Solving:** Identify, diagnose, and resolve issues efficiently using debugging tools and techniques, ensuring a smooth and error-free user experience.

EMPLOYMENT CONTOUR

Software Developer

Dec 2023 – till now

MVP Studio, New Zealand

- Transform UX designs from Figma into fully functional and responsive user interfaces using React JS, React Routing, React State Management (Context API), HTML5, CSS3, Tailwind CSS
- Building responsive, maintainable, and efficient React functional components using modern best practices.
- Leveraging Storybook to design, develop, and test UI components in isolation, ensuring consistency and scalability.
- Writing and executing comprehensive unit tests with Jest to ensure reliability, quality, and bug-free code.
- Collaborating in an Agile environment, contributing to sprint planning, daily stand-ups, code reviews, and continuous delivery to meet team goals.
- Adopting and implementing industry-standard best practices for code quality, maintainability, and scalability.

UI Developer

Sep 2023 - Oct 2023

One Second Insight Ltd., New Zealand

- Created an interconnected and dynamic network of data sources using D3.js, ensuring efficient data generation and sharing within the digital ecosystem.
- Used D3.js to build interactive and visually appealing data visualizations that enhanced user engagement and understanding.
- Transformed Figma designs into functional and responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap.

SYNOPSIS

Creative and detail-oriented software developer specializing in front-end development with extensive experience designing and implementing dynamic user interfaces. Proficient in HTML5, CSS3, JavaScript, and modern frameworks such as React JS and Next JS. Adept at converting UX designs into functional, responsive web applications that provide excellent user experiences across various devices. Committed to continuous learning and staying updated with the latest industry trends to deliver innovative and high-quality solutions.

EXPERTISE

- UI/UX
- HTML5
- CSS3
- JavaScript (ES6+)
- React JS
- Next JS
- D3 JS
- Bootstrap
- Tailwind CSS
- Storybook
- Jest Unit Testing
- Cross-Browser Compatibility
- Web Performance Optimization
- Single Page Applications
- Progressive Web Apps
- RESTful APIs
- Webpack
- Babel
- Version Control (Git)

ACADEMIA

- Bachelor of Computer Engineering (2013) - Pune University, India
- Software Developer Course - Industry Connect, New Zealand

Web Developer

Dec 2021 - Apr 2023

Wipro Limited, India

- **Client: Surya Hospitals, India** – Contributed to the MindYourHealth healthcare application by creating and managing React components, leveraging JSX and CSS to optimize the user interface. Implemented asynchronous data handling using `async/await`, ensuring efficient data fetching and processing. Conducted extensive front-end testing and delivered technical documentation to support project continuity.
- **Client: Finolex Industries, India** – Supported the ASTM Pipes & Fittings product page, ensuring functionality and consistency with industry standards.
- **Client: TC Energy, Canada** – Worked on SAP UI5 and Fiori elements, developing and maintaining UI components to enhance UX in collaboration with SAP support teams.

Maternity & Freelancing

Aug 2016 - Dec 2021

- I took maternity leave break, during this period, I also kept myself engaged by enrolling for Graphic Designing Course (Photoshop, Illustrator & Figma).
- I started freelancing as a graphic designer, delivering projects like photo albums, Brochures, static websites, logos and branding materials. This phase allowed me to sharpen my design skills

Web Development Engineer

Jan 2015 - July 2016

Verixo Technologies Pvt. Ltd., India

- **Client: WOW Fitness India** –
 - E-Fitness: application enabling users to set fitness goals, track workouts, and monitor progress.
 - E-Desk: application to manage customer support activities online, and improving customer service
- Utilized HTML5, CSS3, and JavaScript to write clean, maintainable, and efficient code for various web applications.
- Developed responsive layouts adaptable to different viewport sizes using CSS media queries and flexible grid systems.

Graduate Programmer

July 2013 - Dec 2014

Xecom IT, India

- Created visually appealing and user-friendly UX designs, graphics, icons, and buttons using Adobe Photoshop.
- Developed website layouts and structures with HTML5 and CSS3, ensuring device compatibility by applying responsive web design
- Designed and managed WordPress websites, created customized themes and plugins, and handled DNS and hosting setup using GoDaddy.
